Dear

**Changes to the F-111 health care and compensation package –
keeping you informed**

In response to the Parliamentary Inquiry report, *Sealing a just outcome: Report from the Inquiry into RAAF F-111 Deseal/Reseal workers and their families*, the Government has revised the health care and compensation package for personnel affected by their involvement in the maintenance of the F-111 aircraft.

The Government's Response has three main themes – compensation, health care and counselling. You can find the Government's full response at f111.dva.gov.au and I have enclosed a fact sheet outlining the response. Four other fact sheets are also enclosed giving you an overview of the changes to the Tier scheme and the SHOAMP Health Care Scheme and Better Health Program eligibility and services.

If you'd like more information on the schemes, please go to f111.dva.gov.au or call us on **1800 555 323**.

Yours sincerely
