

Aged Care Eligibility Matrix - 1 May 2019

The Aged Care Eligibility Matrix includes all aids and appliances available on the Rehabilitation Appliances Program (RAP) National Schedule of Equipment (the schedule) and references whether the aids and appliances can be supplied under the different Aged Care Funding Instrument (ACFI) classification levels. The matrix is a guidance tool and further investigation and assessment may be required for complex individual cases.

✓	Indicates that the item may be provided under the RAP
✘	Indicates that DVA does not provide the item and that the Residential Aged Care Facility is responsible for the provision of the item
