FEE SCHEDULE
OF
DENTAL SERVICES
FOR
DENTISTS
AND
DENTAL SPECIALISTS

EFFECTIVE 1 JUNE 2014

BASED ON *AUSTRALIAN SCHEDULE OF DENTAL SERVICES AND GLOSSARY*, 10TH EDITION

IMPORTANT INFORMATION

Preventive Dental Services by Dental Therapists, Dental Hygienists and Oral Health Therapists

Dental therapists, dental hygienists and oral health therapists can provide preventive dental services to members of the veteran community if they are:

- registered with the Dental Board of Australia and comply with approved scope of practice registration standards;
- covered by either their employer's indemnity insurance or maintain their own insurance as mandated by the Dental Board of Australia; and
- qualified and competent to provide the service.

Claims for these services are to be submitted by the dentist or dental specialist on their behalf at the current DVA dental fee.

Process for Schedule A – time and quantity restrictions

If there is a clinically assessed need to provide dental services *above the time and/or quantity limits* as listed in the fee schedule, dentists and dental specialists will only be required to seek prior financial authorisation for items marked with an asterisk (*).

Lost or broken dentures

For the replacement of dentures that are lost or broken beyond repair, a statutory declaration from the patient must be provided and stored for audit purposes.

Changes to holders of Repatriation Health Card – For Specific Conditions (White Card)

- For treatment provided under the *Veterans' Entitlements Act 1986* (VEA) and the *Military Rehabilitation and Compensation Act 2004* (MRCA)

As from 1 September 2012 dental providers will no longer be required to contact DVA for prior financial authorisation of treatment for White Card holders *where the service is related to the White Card holders accepted condition(s)* unless otherwise specified in this fee schedule.

Providers can contact DVA (see telephone numbers listed below) if they require treatment status for White Card holders.

Compliance

DVA is placing a greater emphasis on the existing compliance model for the provision of all health services. DVA will maintain its commitment to working with service providers to maximise voluntary compliance. Therefore treatment must be based on assessed clinical need. It is important dental providers continue to document the clinical reasons for treatment provision to DVA entitled persons.

DVA has compliance monitoring systems which monitor the servicing and claiming patterns of health care providers. This information assists DVA to establish internal benchmarks, the current utilisation and projected future delivery of services.
