Form 65 - Notification of licensed asbestos removal work / demolition work / emergency demolition

Form 65 is an approved form to be used to notify Workplace Health and Safety Queensland (WHSQ) of notifiable demolition work under the *Work Health and Safety Act 2011* and *Work Health and Safety Regulation 2011*. It may also be used to notify WHSQ of licensed asbestos removal work or emergency demolition of structure or plant containing asbestos.

For more information visit www.worksafe.qld.gov.au or phone 1300 362 128.

Privacy Statement

Workplace Health and Safety Queensland (WHSQ) is collecting your personal information on this form to notify the regulator of licensed asbestos removal work, notifiable demolition work or emergency demolition work under sections 142, 454, 455 & 466 of the *Work Health and Safety Regulation 2011*. It is WHSQ's usual practice to disclose this information as needed to other Commonwealth, state or territory work health and safety regulators, the Department of Environment and Heritage Protection (DEHP), or other entities that are relevant to your notification such as local government authorities.

1 - Type of Notification

Select a Notification Type:

☒

Notification of licensed asbestos removal work

A licensed asbestos removalist must give written notice to the regulator at least five days before the removalist starts licensed asbestos removal work. If the asbestos must be removed immediately, the licensed asbestos removalist must give notice to the regulator immediately by telephone and in writing within 24 hours (which can be achieved by completing this form).

☐

Notification of demolition work

*'Notification of demolition work' is to be given at least five days before work commences by a person proposing to carry out demolition. **NOTE:** for demolition work requiring licensed asbestos removal work being carried out by the same business, select the combined 'Notification of licensed asbestos removal and demolition work' option below.*

☐

Notification of licensed asbestos removal and demolition work

Select this option if the same business is carrying out both licensed asbestos removal work and demolition work at the same time. 'Notification of licensed asbestos removal and demolition work' is to be given for notifiable demolition work which also requires more than 10m² of non-friable or any friable asbestos to be removed. 'Notification of licensed asbestos removal and demolition work' is to be completed at least five days before licensed asbestos removal work or demolition work commences, or in the case of immediate asbestos removal work, immediate notification by telephone followed by written notification within 24 hours is required

☐

Notification of emergency demolition of structure or plant containing asbestos

'Notification of emergency demolition of structure or plant containing asbestos' must be given immediately after the person becomes aware of the emergency and before the demolition work is commenced. This option applies if asbestos is fixed to or installed in a structure or plant that is structurally unsound, or collapse of the structure or plant is imminent.

☐

Notification of emergency demolition - emergency service organisation only

Notification of emergency demolition work by an emergency service organisation is to be given as soon as practicable before or after the work is carried out. An emergency occurs when an emergency service worker, at the direction of the emergency service organisation, is rescuing a person or providing first aid to a person.

3 - Details of business / undertaking

Provide the details of the business / undertaking / emergency service organisation proposing to carry out licensed asbestos removal work or demolition work including contact name and contact details.

Asbestos removalist business details				
Asbestos removalist ABN:	55603172550	ABN Verified:	No

10 - Dates for asbestos removal work

Asbestos work date

A licensed asbestos removalist must give written notice to the regulator at least five days before the removalist starts licensed asbestos removal work. If the asbestos must be removed immediately, the licensed asbestos removalist must give notice to the regulator immediately by telephone and in writing within 24 hours.

Licensed asbestos removal work may start immediately if:

work was due to a sudden and unexpected event, including a failure of equipment that may cause persons to be exposed to respirable asbestos fibres	
work was due to an unexpected breakdown of an essential service that requires immediate rectification to enable the service to continue	

Start date:	23/02/2023
Finish date	26/05/2023

Note: If asbestos is removed immediately then notice must also be given to the regulator immediately by telephone.

13 - Declaration

I declare that:

The information supplied in this form is true and correct to the best of my knowledge.

I acknowledge that it is an offence under s268 of the *Work Health and Safety Act 2011* to provide false and misleading information in this form.
