Hi

Tetra Tech Coffey is working on behalf of the Department of Veteran Affairs and is in the process of preparing a CLID/Validation Report for the following properties which are listed on the EMR. Can you please confirm when the properties were listed on the EMR and what contaminated land records (e.g. site investigation reports) DES holds on these properties. If the information is available it would be very helpful if DES can provide a reference for the report held. A record of the EMR search is attached.
