## **NOTES**

### **Definition**

The "treatment population" consists of veterans and dependants who have been issued a Gold or White card entitling them to medical and other treatment at Department expense under the *Veterans' Entitlements Act 1986*, the *Military Rehabilitation and Compensation Act 2004*, the *Safety, Rehabilitation and Compensation (Defence-related Claims) Act 1988*, the *Australian Participants in British Nuclear Tests and British Commonwealth Occupation Force (Treatment) Act 2006* or the *Treatment Benefits (Special Access) Act 2019*.

### **Revisions**

From September 2013 table 5 reports card holders by the legislation under which treatment expenses are paid.

Considerable changes have been made to table 6 and so it is no longer comparable to historical reports. Prior to September 2013, table 6 grouped clients by conflict using DVA file number. This resulted in veterans from recent conflicts being counted in a single group (Defence/Peace Keeping). From September 2013, clients are now counted under each conflict or operation in which they are known to have served. This change has made it possible to report figures for conflicts such as East Timor, Afghanistan and Iraq. Merchant mariners from the second world war are now included in the count of all former servicemen and women from World War II. Veterans from the Far East Strategic Reserve (FESR) are now included with those who served in Korea or Malaya.

Veterans with service in more than one of the specified conflict groups are counted under each relevant conflict. For this reason, individual conflicts can not be summed. Net totals for multiple conflicts can be requested by emailing 'statistical.services@dva.gov.au'.

**Notes:**

- (1) For veterans, the conflict categories have been derived from a combination of the conflict(s) to which any accepted disabilities have been attributed, the conflict from which the veteran has Qualifying Service (QS) or the conflict(s) listed in the veterans' service details (where known by DVA). Where none of these are known, DVA File Number is used.
- (2) For dependants the conflict categories have been derived from a combination of the conflict(s) to which any accepted disabilities for the deceased veteran have been attributed or the conflict(s) listed in the deceased veterans' service details (where known by DVA). Where neither of these are known, DVA File Number is used.
- (3) Veterans and dependants of veterans who have served in multiple conflicts are counted once under each relevant conflict group. For this reason the reported numbers for each conflict must not be summed.
