FACE-TO-FACE SERVICES

Where a provider has rooms located in a private hospital or RACF the **In rooms** items should be used when claiming. However, where a provider travels to a private hospital or RACF then the **Out of rooms** items should be used.

Residential Aged Care Facilities (RACFs)

- A case-mix based funding model for aged care commenced on 1 October 2022 – the Australian National Aged Care Classification (AN-ACC).
- It is the responsibility of the RACF to provide allied health services consistent with each resident's individual care plan.
- It is the health care provider's responsibility to determine if the RACF is funded to deliver the allied health service before treatment is provided.
- DVA will only pay for an allied health service delivered to a DVA client living in a RACF, if the facility is not otherwise funded to provide that service.
- Where DVA funds treatment, Treatment Cycle arrangements **apply** to the services provided to DVA clients in a RACF.

Hospitals

Treatment cycle arrangements do not apply to allied health treatment provided to DVA clients while they are admitted to hospital.

Private Hospitals

- The Department will only pay for health care services carried out by providers in private hospitals when the contract between DVA and the hospital does not already cover these services.
- It is the provider's responsibility to determine whether or not health care services are included in the bed-day rate under the DVA contract, before providing services. This can be done by contacting the Veteran Liaison Officer at the hospital or DVA.

Public Hospitals

- The Department will only pay for health care services carried out in public hospitals in exceptional circumstances, and only where DVA has given prior financial authorisation.
