COVID-19 TELEHEALTH SERVICES

In response to the COVID-19 pandemic, consultations may be delivered to all eligible DVA clients via telephone or video conferencing attendance for the period 1 April 2020 to 31 March 2021. Telehealth services may only be provided if the full service can be delivered safely and in accordance with all relevant professional standards and clinical guidelines.

Providers will determine whether it is clinically appropriate to deliver a service via telehealth, but should include the following factors in their considerations:

- Can the client access and successfully use the technology?
- How practical is it to provide the required treatment or therapy via telehealth?
- Is the physical location in which a client is accessing telehealth safe and effective for the treatment?
- Does the health professional have a plan in place to address and mitigate any potential risk to the client?
- Has the client provided informed consent to participate in the telehealth service?

Providers delivering services via telehealth should ensure the technology platform they use:

- provides adequate video or telephone quality for the service being provided; and
- is secure enough to ensure normal privacy and confidentiality requirements are met.

TELEHEALTH ITEMS

- Only claimable for treatment provided by telehealth from 1 April 2020 until 31 March 2021.
- Phone consultations can only be provided when video conferencing is unavailable.
- COVID-19 telehealth services are considered a consultation under the treatment cycle requirements.

INITIATIVES UNDER THE MEDICARE BENEFITS SCHEDULE

The specified item numbers are part of the MBS and the rules and requirements of the MBS apply to services provided to DVA clients. Services funded under DVA arrangements must also adhere to DVA's requirements. Please refer to www.mbsonline.gov.au for details.

The Treatment Cycle does not apply to services using MBS item numbers and an End of Cycle Report item cannot be claimed in respect of these services. However, providers should familiarise themselves with any reporting requirements associated with these services and ensure they adhere to them.

When claiming these items for DVA clients, the invoice to Services Australia must be submitted through the DVA Medical Online channel using practice management software, or if using DVA Webclaim, by selecting 'General Medical Service' from the Service Type menu on the 'Fill In Claims Details' screen. These items cannot be claimed through DVA Allied Health Online, nor using the 'Allied Health Service' service type through DVA Webclaim.

EXTENDED ELIGIBILITY FOR ALLIED HEALTH TREATMENT TO RESIDENTIAL CARE RECIPIENTS

These items are available from 10 December 2020 to 30 June 2022 (inclusive) for DVA clients living in RACFs. DVA clients in RACFs may access up to 20 individual mental health services per calendar year under these arrangements.

Services can be delivered either face to face or via telehealth (telephone or video). In recognition of the additional time required, providers who visit a RACF to deliver services will be paid an additional 'flag fall' fee once per visit to a RACF (regardless of how many clients they treat within that visit).

Prior financial authorisation is not required to provide these services to DVA clients in high care. For any services required in excess of the limits on these arrangements, DVA's existing prior financial authorisation arrangements apply. DVA clients in low care can access mental health services under these new arrangements or under DVA's existing allied health arrangements.
