NOTES

The "treatment population" consists of veterans and dependants entitled to medical and other treatment at Department expense under the Veterans' Entitlement Act, the Social Security and Veterans' Entitlements Admendment (No2) Act 1987, the Veterans' Entitlement (Transitional Provisions and Consequential Amendments) Act 1986 and the Military Rehabilitation and Compensation Act 2004.

The source of treatment population statistics is the Departmental Ad hoc Information System (AIS 2000), using the "current date" method of extraction. This replaces the "point-in-time" method which was used from June 2000 (after initial implementation of AIS 2000) to December 2001.

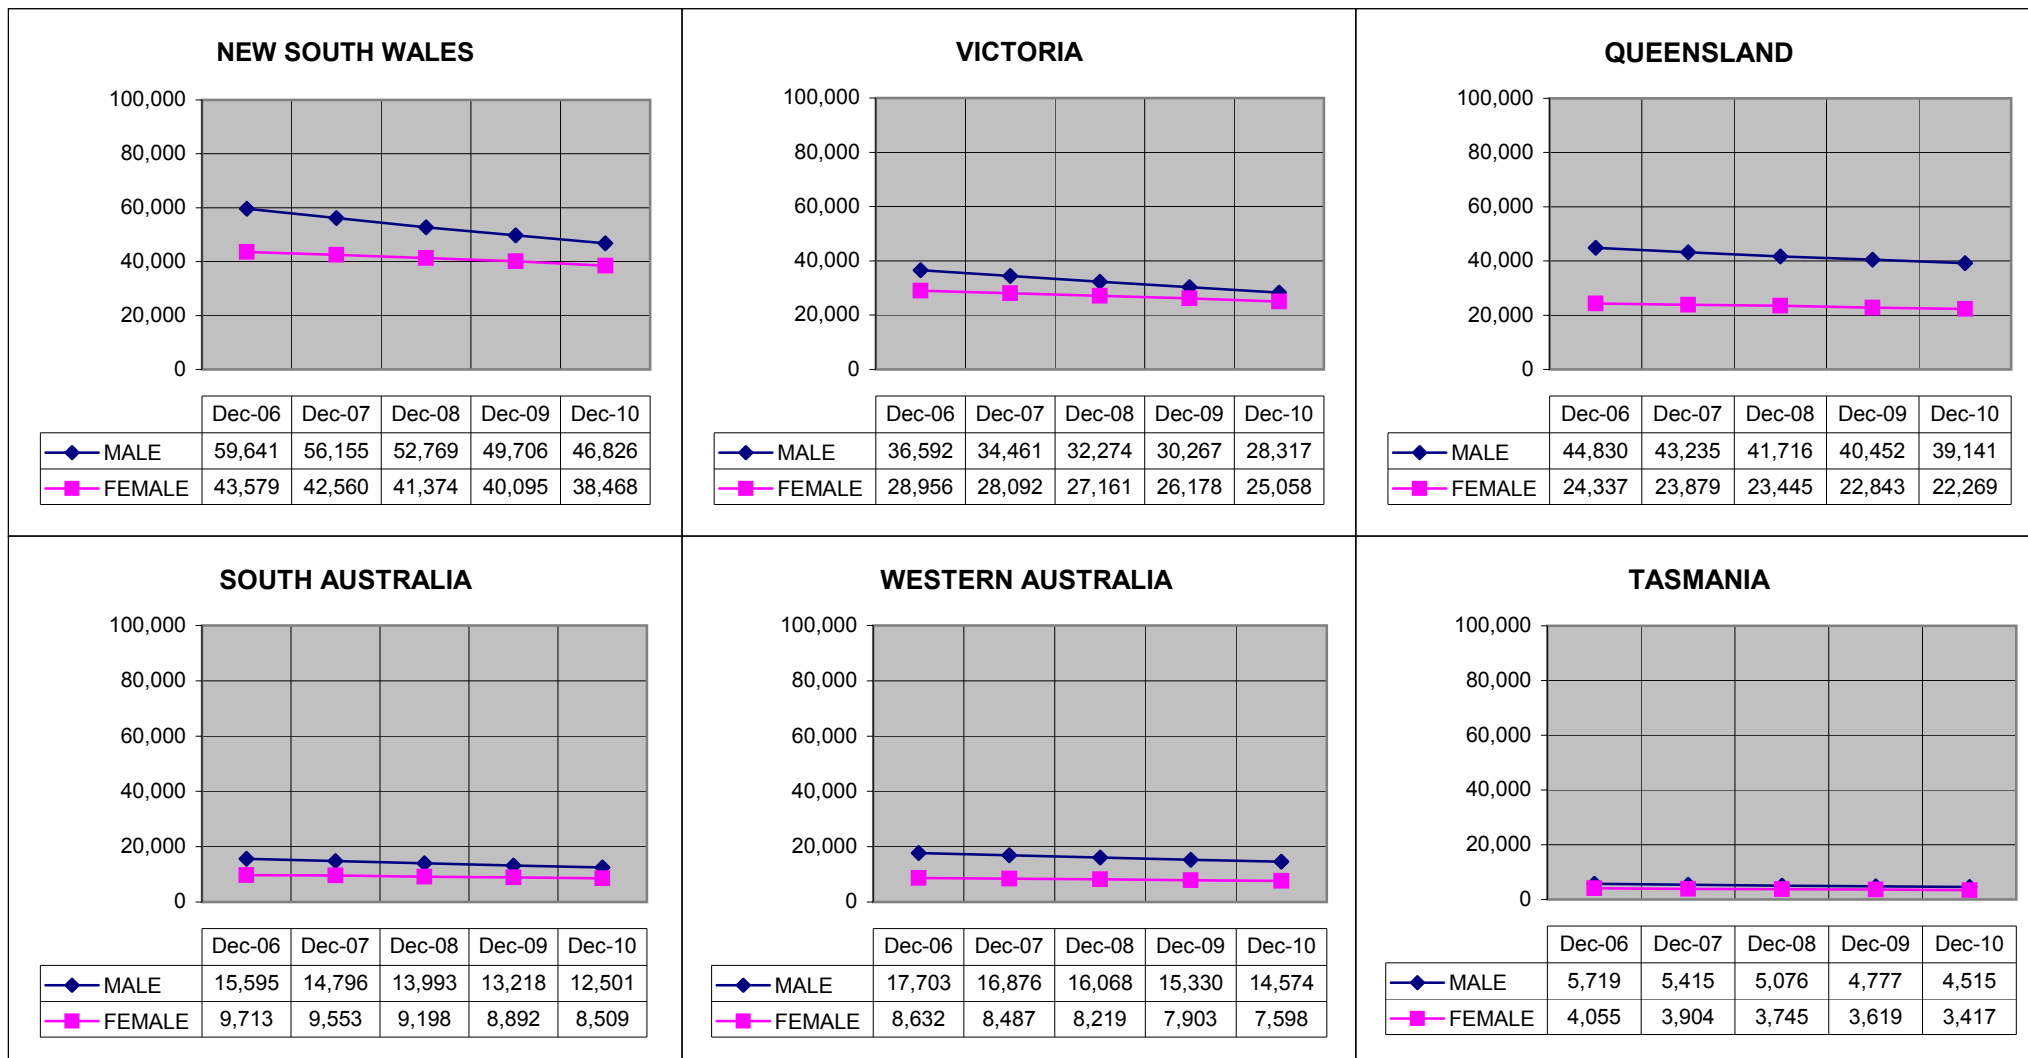

The Treatment Population Statistics by state and postcode relate to the client's residential address. This will differ from statistics based on state of processing or administration.

On 1 January 1996, the number of treatment card types was reduced from four types to two types. PTEC¹, SPBC², and DTEC³ were amalgamated into the Gold Card and STEC⁴ was replaced with the White Card.

Footnote

- (1) PTEC: Personal Treatment Entitlement Card.
- (2) SPBC: Service Pensioner Benefits Card.
- (3) DTEC: Dependant Treatment Entitlement Card.
- (4) STEC: Specific Treatment Entitlement Card.

Note:

The conflict categories have been derived from the Client File Number. Because of this, the figures do not reflect the total number of veterans who served in each conflict. Also, due to inconsistencies between file number code standard and actual allocation of file number, discrepancies exist in the data.
